RENT HOGS NOT WANTED—BAXTER

New Republic Vice President Also Takes Crack at the Profiteer.

CO-OPERATION IS WANTED

Needed in Order to Make Plant Prime Eminent Truck Factory of Country.

That rent gougers and profiteers are two classes that are not to be desired in Alma by the Willys interests and that these interests seek the earnest co-operation of all Alma people in the future development of The Republic Motor Truck Company, Incorporated, in making it a truck industry second to none, were some of the very interesting things that were brought out Tuesday morning in an interview that The Record reporter had with W. J. Baxter of New York, the new vice president of the company, just before he left for Europe on a six weeks' business trip.

Mr. Baxter said that the Willys interests do not want rent hogs in Alma, men who desire to wring out every possible penny for the dwellings that they have to rent. This is not to be taken, of course, that the man who seeks a fair return on his investment is a rent hog, but rather applies to those who seek to take an unfair advantage of renters because of the house shortage in this city. The fair landlord is one to be greatly desired. That the Willys interests are working upon a plan to establish a fund for the construction of better grade modern homes for the officials of the company, who will reside in Alma, was strongly intimated as there is evidently a feeling that the company must construct good houses for the better trained men to make positions, with the company here, attractive ones. While nothing was said as to medium priced modern homes for working men, it was intimated that local builders should continue the construction of such residences if Alma is to continue to enjoy the growth that is so greatly desired by residents of this city. That many more homes are to be needed in the near future, if the company carries out its plans in making The Republic Motor Truck Company a larger institution, is certain.

Mr. Baxter stated that the local profiteer had to go even if it became necessary for the company to establish its own store for its employees. No single business enterprise in the city was pointed out as having been profiteering, but it is very evident that Mr. Baxter had the opinion that there are some business houses here that are reaping a larger harvest of profit than the investment would warrant, as he stated that some merchandise cost more in Alma than in Detroit or Cleveland.

That co-operation is sought by the company in making The Republic Motor Truck Company Incorporated, the industry which the Willys interests desire, was pointed out by Mr. Baxter, and he believes that such co-operation will prove just as beneficial to Alma people as to the company that he represents.

That The Republic Motor Truck Company Incorporated will remain in Alma, and that it will grow into a far larger industry that it is at present, if these things are attained, is certain, but again Mr. Baxter made it just as plain that the Willys interests had the money to move the factory elsewhere, if Alma people should make it seem a desirable move for the concern.

That the Willys interests see a brilliant future in The Republic Motor Truck Company Incorporated, is certain. Otherwise these interests would not have become so heavily interested in the concern, and would not be planning further large investments to make the company a still larger one, that will fix more securely its hold as the world's largest exclusive truck factory.

STARS ON FRIDAY

Final Home Game With State Champs to Be Played Tomorrow.

The Detroit All Stars will finish their engagement in Alma with the Republic Trucks with Friday's game at Republic field, which starts at 5:20.

This game will be the sixth of the series for the state championship, each team having collected two games of the four played up to today. The Friday battle promises to be bitterly fought, as it will make it possible for the series to again be even Friday night, with each aggregation having three games to its credit, thus making a seventh and final game necessary. In such a case the seventh game would probably be a Sunday affair to be played in Detroit.

It is expected that Republic field will see another record in attendance for tomorrow's game, and it is probable that over 2,000 people will pass through the gate.

Sir Ernest Shackleton's "Bottom of the World"—Strand tonight—adv. Best candies. DeLuxe—77-7f-c

FRESH AIR

Professor Winslow Gives An Interesting Definition of Fresh Air.

Prof. C. E. A. Winslow of the Department of Health of Yale University has come forward with a definition of the term "fresh air" that is heartily endorsed by the Michigan Anti-tuberculosis association. Here it is:

"Fresh air has four qualities. First, it is cool air. Air that is above 69 degrees F. is always harmful except for very old people. Whenever the indoor temperature rises above this point, the circulation is upset, one tends to become dull, languid and inefficient, and the delicate membranes of the nose and throat are injured.

"Secondly, fresh air is moving air. Still air blankets the body and produces a deadening, numbing effect. Air in gentle motion stimulates the skin.

"Thirdly, fresh air is moderately moist air. Either very dry or very humid air is harmful.

"Lastly, fresh air is variable air. Slight changes in temperature and humidity are stimulating and wholesome for the body."

The term "fresh air" is used a great deal, but most people do not know exactly what is meant by the term. For all such the definition given by the Yale man is helpful.

KNIGHTS OF PYTHIAS RALLY

All Pythians of Gratiot Co. are requested to gather at Rock Lake, Sunday, August 15th, for a basket picnic. Program announced later.

STALEY NINE EASY FOR "RIP" HAGERMAN

Was Wild and Walked Five Men But Illinois Hitters Couldn't Touch Him.

The Staley team of Decatur, Illinois, which met the Republics Sunday on the third invasion of that state by the Trunkers this year, fared no better than have a score of other speedy teams at the hands of "Rip" Hagerman in the past two seasons. Just as stingy as he ever was, "Rip" gave the Illinois outfit just three safe swats during the nine innings of play, and defeated them 4 to 1.

Hagerman was forced to hurl fine ball to defeat the Staley team, which was one of the best played this year, and which has earned victories over the Fairbanks-Morse and other fine nines. "Rip" was somewhat wild, and got himself into a peak of trouble in the eighth inning, when one real good swat might have tied up the score, and sent it into extra innings. Bases on balls in the eighth and one single gave the visitors their lone run.

The Trunkers started their scoring early in the game, counting one run in the third, two in the fourth and the final run in the sixth frame. Only two of them were earned. Seib, pitching Ace for the Staleys, was on the mound and hurled good ball, but was taken out in the seventh to let a pinch hitter try conclusions with "Rip."

DIED IN DETROIT

Ruth Jean Miller, the 22-month-old daughter of Mr. and Mrs. Ray Medler of Detroit, died in that city after the fourth from the effects of eating a firecracker, which evidently contained poison. The body of the baby was brought to Alma last Saturday and burial made in Riverside cemetery. The mother of the child has not yet been informed of the loss, being very severely ill in a Detroit hospital. Mr. and Mrs. Ray Medler are former Gratiot county people, and the former is a son of Mr. and Mrs. William W. Medler of this city.

NOTICE

The Dort auto is one of the best on the market. I have taken the agency and will have a sales room in the near future. Until that time consult me at the post office. Z. G. Shiff, phone 119—56-1-p

BANK PROSPECTS LOOKING BETTER

Little Chance Apparently That the New Institution Will Not Organize.

STOCK IS NOW HALF SOLD

Chances Are That Banking Company Officials Will Be Chosen Next Week.

Prospects for Alma's First National Bank were said the first of the week to be of the brightest, the work looking towards the formation of this new institution having been said to have proceeded in a very gratifying way during the past week, giving the promoters of the venture every reason to believe that there will be little trouble experienced in the formation of the new banking house.

It was stated the first of the week by J. W. Blakley that the stock for the bank has been over half subscribed, and at that time he was anticipating very little difficulty in disposing of the balance of the stock. It is rather expected that the balance will be spread over a far larger number of stockholders than the amount that was subscribed, due to the desire to interest as many as possible in the new banking venture, and the fact that the larger stockholders have probably already been secured.

Very little of the stock is being disposed of to any one outside of the city, due to the desire to have Alma capital behind the bank to as great an extent as possible, and for this reason it may take some few days more to get all the stock subscribed, than would otherwise be the case.

The fact that half of the bank stock has been spoken for also means that half of the stock of the holding company that is also being organized for the purchase of the Pollasky block, has also been placed, as the purchaser of bank stock is being required to purchase one share of stock in the holding company for every share of bank stock taken.

Officers for the new bank were not chosen this past week as had been expected, but there is every reason for believing that they will be selected within the next few days. Without a doubt they will be Alma people of responsibility, and numbered among the heavier stockholders of the new venture.

OBITUARY

Mrs. Emily A. Terry, a resident of Green Township forty years, died Thursday at the age of eighty-three. She had been actually ill only this week, and the cause is believed to be a general breakdown due to her advanced years.

Mrs. Terry, whose maiden name was Gamage, was born at Orient, Long Island, and was a daughter of Rev. Smith P. Gamage who finished at Yale and Oxford and had charge of a church in London, England at the age of twenty-three. She has been an earnest and consistent Christian worker during her entire lifetime.

She was married to the late Brewster Terry in 1858 and the couple came to Michigan in 1874. They made their home in the vicinity of Hershey before locating in Green township.

Six of the eight children survive their mother. In the order they are, Eva I. Palmer of Redford, Mich., Hattie E. Graham of Detroit, Lucy M. Cash of Alma, W. A. Terry of Paris, Mich., Essie M. Boughner of Confluence, Pa., and W. S. Terry of Detroit.

Funeral services are arranged for 2 o'clock Saturday afternoon, eastern time. Interment will be in Parkhill cemetery—Big Rapids Pioneer.

NEW MICHIGAN CORPORATION

At a recent meeting of the Board of Directors of the Mac-Lar Battery Co., Inc. of Detroit, it was decided to change the company from a Delaware Corporation to a Michigan Corporation. This change has been consummated and the capitalization placed at \$125,000.

In the year and a half of its existence the Mac-Lar Battery Co. has attained a nationwide distribution for its product—the Mac-Lar "Spoke-Test" lighting and starting batteries. The new plans of the company provide for following up this successful record with an even more intensive merchandising campaign and largely increased production.

METCALFE HERE

C. F. Metcalfe of Saginaw, who is working under Dr. Brodick, with a view of aiding sick, or disabled veterans of the World war in Gratiot, Saginaw, Montcalm, Clinton, Shiawassee, Ingham and Livingston counties was in Alma Tuesday, taking up matters pertaining to the work. It will also be his duty to be of service to men who are having trouble with their insurance, etc. Such matters should be taken up with the Legion post by former service men, and the post will get in communication with Metcalfe, who makes his headquarters at the armory in Saginaw.

Say Pan-Dandy when you call for bread.—64-13-c

CREAM CARE

McCracken Tells of Care That Should Be Given.

"Nine varieties of butter all made from cream! That seems strange, yet the U. S. Department of Agriculture, Bureau of Markets, Chicago office, under date of June 8th, reports quotations on that many different grades of butter, ranging in price from 45 cents to 55 1/2 cents," said Mr. McCracken, manager of Swift & Company's local produce plant.

The variation in price is due to the different qualities of butter being marketed. In the beginning, the milk was all generally of the same quality, but somewhere along the line there was a failure to take care of cream properly and this resulted in the many varieties of butter.

"The trouble is," Mr. McCracken continued, "that our producers here don't all take care of the cream as they should. This is due to the fact that they do not generally understand just how cream should be handled in order to deliver the very highest quality."

"One of the most important things is clean utensils, clean separators, washed after each separation. Another important feature is promptly cooling the cream. It is also important that cream from each milking be kept separate until it is thoroughly cooled. Do not mix warm and cold cream."

"It is a short-sighted policy for producers to deliver poor cream, as butter made from such product brings a lower price on the market. The price creamerymen pay for cream is largely governed by the selling price of the butter made."

"In some districts, cream is bought on a graded basis, a higher price being paid for the better grades of butterfat. This plan of purchasing is doubtless growing in favor, as through this method the producer is stimulated to produce and market a better quality of cream."

STATE SAVINGS BANK INCREASED CAPITAL

Surplus Fund of This Institution Has Been Doubled Making \$30,000.

The Alma State Savings Bank of this city, which only a short time ago found it necessary to increase its capital stock from \$30,000.00 to \$40,000.00 has again found that it must have a larger working fund and the capital of the institution has now been increased another \$10,000.00, the increase having been made the first of the month.

Not only has the capital stock of the bank been increased to \$50,000.00 but the surplus fund of the organization has been doubled, having been increased from \$15,000.00 to \$30,000.

The Alma State Savings Bank has been enjoying a steady healthy growth since its inception, but of late years this growth has become more and more marked, being a clear reflection of the growth of the community, which the institution is serving. Such has been its growth that the directors decided that the move was necessary in order that the institution might better serve its patrons.

The bank of late months has been increasing the facilities for the care of its patrons, and still further changes are contemplated in the very near future that will also be of aid in making the bank a better and a stronger institution.

NEW ORGANIZATION

Yeomen Fraternity of Des Moines Organized in Alma.

District Manager Myron B. Franklin and Special Organizer Samuel R. Harvey of Lansing arrived Monday and have launched a vigorous campaign to establish a Homestead of Yeomanry in the city, and the call is being answered very rapidly as the charter list now contains 54 signatures. Dr. Graham has been awarded the commission as local examiner.

The society is a whole family institution, insuring men, women and children between the ages of one year and sixty, all meeting on one common level of equal rights. It is the largest fraternity of its nature in the world, with a membership of 28,750 men and women over its jurisdiction which is the United States and Northwestern Canada. There being 11,000 within the boundaries of the state of Michigan.

Local headquarters has been established in the Pollasky building, which is open from 8:30 a. m. to 8:30 p. m. Local Yeomen residents holding membership elsewhere are invited to call at headquarters.

Organization meeting and banquet will be announced later. The Capital City Degree staff will institute the Homestead and put on the initiatory degree.—adv.

POLLS OPEN LONGER

By resolution of the city commission passed Tuesday evening the polls in Alma will be open longer than in the past at the coming primary election the latter part of August. The resolution will cause the polls to be open from 8:00 a. m. until 8:00 p. m. standard time, and as eastern time is now the standard time of the city, this will be the time observed.

ALMA COMMUNITY COUNCIL WORKING

Committees Are Seeking Data Regarding the Conditions in this City.

DELINQUENCY BIG PROBLEM

Corrective Measures to Be Planned for Evils Found in the Neighborhood.

Committees are now delving deeply into Alma affairs with a view of ascertaining the needs of the community, that the Alma Community Council may be better prepared to work to advantage in securing for the city those things which it needs that the welfare of its people may be raised to a higher plane than ever.

Monday evening a meeting of the council was held in the offices in the Wright Estate block, and plans laid for the survey of Alma, which is now actively in progress. Tuesday evening, the various committees working under the council, met and the work that is to be followed by the committees was laid out for them.

This work will cause committees to delve into the needs of Alma as to recreation, park space, playgrounds and supervised recreation, commercialized recreation such as found in the poolrooms and bowling alleys; need of a community center, health conditions including the care of the sick; medical inspection in schools, housing and sanitary conditions, juvenile delinquency and its treatment, educational work and vocational training.

It is expected that the work of the committees will take from ten days to two weeks, after which the data compiled will be sent to the Red Cross headquarters in Chicago, where it will be analyzed, and formal recommendations will then be made as to the lines that should be followed in this city in order that the best results may be obtained.

Wednesday evening another meeting of the committee was held, at which time reports were given as to the work that had been done up to that time and special stress was laid upon the necessity of an early completion of the work.

It was decided that a better observance of the truancy laws was needed, and that better care should be taken of delinquents, especially the juveniles, whose ways can far more easily be corrected while they are still young, than later in life. In this respect the Alma Community Council believes that much good can be secured by proper co-operation.

ARCADA FARMERS' CLUB

The regular meeting of the Arcada Farmer's Club will be held Thursday, July 22, at the home of Bird Clark, two and one-half miles south of Alma on Grover avenue. On account of the hot weather a cold dinner will be served. Every woman is requested to bring a well filled basket of eats already prepared.

The following program will be given:

Opening song—Club
Lord's prayer—Club.
Song—Club.
Address of Welcome—Bird Clark.
Reading—Mrs. John Fink.
Recitation—For Sale a Ford by Mrs. Wess Webb.
Solo—Louise Hainline.
Reading—Mrs. Fred Rockafellow.
Solo—Mrs. Hec Smith.

Question Box—Be thinking of some subject you would like to hear discussed.
Closing song—Club.
By order of committee.

FLOWER SHOW

Two objects demand the attention of every public spirited Alma-loving man and woman in the city today; the kind of books the boys and girls are reading and the care of the summer gardens. If one has recently visited the new public library, he would be impressed with the dearth of good books. A fund has been created for the purpose of providing such books, and everyone should add to this fund. An opportunity will be given at the Flower Show and Garden Party to be held Saturday afternoon from 3 to 5, on the lawn of Mr. and Mrs. Francis King's place on Orchard St. Everything to please the eye, the ear, the palate and the pocketbook.

DEDICATE ARMY HALL

On Tuesday evening, July 13, at 8:00 o'clock, dedicatory exercises were held at the Salvation Army headquarters, the building which was purchased by the Army some months ago from L. N. Baker, local grocer, being dedicated at that time.

A large number of people from Alma and vicinity were gathered in the hall for the exercises which were in charge of Colonel Margetts of New York City, and Adjutant Storey of Detroit.

CARD OF THANKS

We wish to thank the people who were so kind to us through the period of sorrow which we experienced last week. We are especially grateful to those who sang and brought the beautiful flowers.
Mrs. Nellie Gamble and family.

STRUCK BY AUTO

Woman Struck By Automobile Thursday Evening on Alma Street.

Mrs. Nelson Robbins, an elderly woman, living about two miles north of Forest Hill, was struck by an automobile Thursday evening, at the corner of State and Superior streets as she was attempting to cross Superior street, and was injured rather severely.

The driver of the automobile that struck Mrs. Robbins did not stop, but increased the speed of the car and was quickly out of sight.

So quickly did the accident happen that those who were in the immediate vicinity never thought to get the number of the automobile that struck Mrs. Robbins. After the accident some were of the opinion that a man was driving the automobile, evidently a Ford car, while others were equally as certain that three women were in the auto, and that one of them was doing the driving.

Whoever the driver of the car was, he or she, has laid open the door for a charge of violating the laws, no matter whether or not the driver was responsible for the affair that took place. The fact that the automobile was not stopped and an attempt made to render assistance, gives evidence that the driver was at fault.

The woman was quickly picked up after the accident and removed to a hospital, where she was given medical attention. On Friday she was removed to her home northeast of Forest Hill.

SCHOOL OF METHODS IN PROGRESS AT COLLEGE

Interesting Sessions Creating Great Interest in Bible Study School.

On Wednesday evening last the opening session of the Summer School for church workers was held at the college. This school has been conducted for several years past and offers to all the people of Alma as well as the State the opportunity to study methods of Sunday School work, work in young people's societies and work in Missionary organizations, under expert leadership and to spend a week filled with delightful fellowship and inspiration. It is to be feared that the citizens of Alma have never appreciated just how great a chance to promote the efficiency of their various churches the school offers. This year a lively interest ought to show itself in the School's sessions.

The sessions of the school are held every morning from Thursday July 15 to Tuesday July 20, inclusive, Sunday excepted. The afternoon is left open for recreation and in the evening there is regularly a Vesper service followed by an inspirational address. The general public is invited to attend the evening services free of charge in the college auditorium. Those purposing to avail themselves of full class work may do so for the nominal tuition of \$2.00 for all privileges.

The Vesper services will be addressed each evening by Dr. M. R. W. Heicher of Cedar Falls, Iowa, and the lectures following will be given on Thursday by Dr. Pugh of Columbus, Ohio; on Friday by Rev. Cady H. Allen of Persia; on Saturday by Dr. Stillman of Lansing; and on Tuesday by Dr. Frank Getty of Philadelphia, Pa. Monday evening is called stunt night and is given over to fun.

The morning schedule for each day will be as follows:
8:00 to 8:20—Morning Prayers.
8:20 to 8:50—Study Period.
8:50 to 9:45—First Period classes.
A. Bible study—Rev. W. N. Phelps of Battle Creek.
B. Foreign Missions, Mrs. E. T. Silverthorne of Chicago. Text: "Near East, The Crossroads of the World."

C. Missionary Methods—Miss Marion Helliwell, New York City.
D. Elementary Methods—Miss May Lynn, Knoxville, Tenn.
9:45 to 10:35—Second Period classes.
E. Missions for the Teen age—Miss Helliwell. Text: "Frank Higgins Trail Blazer."
F. Young People's Society Methods—Rev. W. L. Gelston, Alma.
G. Teen Age Methods—Rev. Jas. Mondell, New York City.

H. Teacher Training—Rev. Carl Attig, Big Rapids, Mich. Text: "Thoroughly Furnished." Part II.
10:35 to 10:50—Recess.
I. Missions for Guild Workers, Mrs. Silverthorne.
J. Junior Methods—Miss Lynn.
K. Individual Service, Dr. Frank Getty, Philadelphia.

L. Christian Fundamentals, Rev. W. C. McKnight, Birmingham, Mich. 11:40 to 12:10—Open Parliament.

CONSTRUCTION UNDER WAY

The construction of the new side track for the Republic Motor Truck Company Incorporated was started on Friday of last week, a big force of men being engaged on the work. The new side track will be a continuation of one of those behind the plant, and will be constructed along the east side of plant 1, on the portion of Bridge street granted to the company by the city some months ago for this purpose. It is now estimated that the side track will cost the company approximately \$40,000.

IS RE-ELECTED BOARD MEMBER

Albert J. Archer is Again the Choice of Voters of School District.

SCHOOL SITES PURCHASED

New Ones Secured and Land is Purchased to Round Out Two Others.

Although it had been expected that Albert J. Archer would not be opposed for re-election as a member of the school board for another term, a slight opposition developed at the meeting Monday night, but it did not bring forth strength enough to be a serious factor in the election, Archer receiving practically four times the number of votes that went to the opposition. Some objection was brought out against some of the proposed new school sites, but the gathering of over 250 voters of the district gave each proposition a handsome vote, all of them being carried.

Because of the lack of any pre-concerted movement in behalf of any one to succeed Mr. Archer, it had not been expected that there would be a very large attendance at the annual meeting. The interest that was developed in the proposal to purchase the various school sites brought out a good crowd of people interested in the location of the site, however. The assembly room was well filled when Otto Sanderhoff, president of the board called the meeting to order at 8:00 p. m.

Following the reading of the reports of the secretary and the treasurer, both of which were adopted, the budget for the coming year was presented to the voters for their approval.

The budget calls for \$123,000 for the coming year, the largest single item in the budget being \$65,000 for teachers. The budget is the largest ever placed before the voters of the district, as is the sum that is provided for the teachers. The amount for teachers is greater by reason of higher wages for the instructors and the fact that the greatly increased attendance in the public schools demands more of them than ever before. The only question that came up regarding the budget, was whether or not it was large enough to meet the needs. It was passed by the voters.

The election of a trustee to succeed Albert J. Archer was then taken up. Rev. J. Frank Jackson placed in nomination the name of W. E. Wilson, and this nomination speech was followed by the nomination of Mr. Archer by Fred Delavan. Out of 265 votes cast Archer received 212, practically four-fifths of the entire number. Wilson received 49, the balance being scattered for three or four others.

Considerable discussion came up regarding the various sites that the board desired to purchase, but all of them were given large votes and were carried. The discussion brought forth the school census figures, the crowded condition of the public schools and other interesting data.

The sites which the voters of the district decided to purchase follow: Sixteen lots in block one, Udele addition costing \$4,000; this site being in the northwestern part of the city; fifteen lots in the block north from Williams street and west from Oregon avenue in the northeastern part of the city at a cost of \$4,500; the rounding out of the Republic school site by the purchase of two houses and lots, and four vacant lots at a cost of \$7,350; and the purchase of five lots to round out the Hillcrest school site at a cost of \$1,600.

The census which was called for during the discussion that came up, showed that Alma has 2,180 children of school age, scattered in the various wards as follows: first ward 884, second ward 824, third ward 196, fourth ward 276.

RAIL LIGHTS

Famous Toledo Aggregation Comes Here for
